HIGHEST CAPACITY DUPLICATOR ON THE MARKET

In record time, your company will be able to duplicate 2400 discs unattended on 24 CD or DVD recorders with your chosen combination of thermal and inkjet disc printers.

The Xpress 2400 can produce up to 400 full CDs per hour with printing, even higher throughput with smaller images.

NEWSS SOFTWARE

Microtech's Network Enabled Work Sharing System (NEWSS) automatically fulfills disc production jobs across multiple Xpress systems. The Xpress 2400 with NEWSS software provides the highest throughput and flexibility available from a disc production system. Get yours today and start sharing the NEWSS!

FULLY LOADED

All necessary software comes fully installed and ready to run. This includes: MyDisc Premastering Software • ImageMaker EZ Duplication Software • NEWSS Software.

Xpress 2400

DISC PRINTING

K2 thermal printer uses the latest retransfer technology for superior photo quality and full disc coverage. The results are comparable to off-set printing.

PR13 thermal printer is ideal for printing text or graphics on blank or pre-silk screened discs in either black or single color.

XpressJet II inkjet printer, developed in partnership with Hewlett Packard provides professional print quality (4800 dpi).

FORMATS SUPPORTED

DVD Video and DVD-ROM, ISO 9660, HFS, mixed-mode, hybrid, audio (CD-DA), Video CD, CD-ROM/XA, Joliet, Romeo, Rockridge, UDF, CD-I, CD Plus, and CD+G (Karaoke) formats.

APPLICATIONS

Our duplication and publishing solutions can be found working around the clock in all of the following industries:

Music • Video • Gaming • Service Bureau • Medical • Banking & Financial • Government • Software • Telecommunications • Manufacturing
